Automating PV Module Health Inspections with **Machine Learning.**

Better Solar LLC

Electroluminescence (EL) Images provide valuable diagnostics that locate defects on PV modules. Our vision is to eliminate the need for tedious *manual* inspection of EL images, **increasing efficiency** and **estimating lifetime** through automation.

THE BETTER SOLAR SOLUTION: *Detailed module analysis with effective detection, localization and classification of numerous defect categories.*

- **Repeatability**
- **User-friendly Software & API**
- **Lower Costs**
- **Customizable Grading Criteria**
- **Increased Accuracy**
