Noel F Myers's challenge details for challenge:

[Solar Prize Round 6](#)

Generated at Wed Oct 05 2022 12:41:11 GMT-0400 (Eastern Daylight Time)

Explanation

We are quickly developing our White Paper and econometrics models. We will need help in beta testing our software as well as support as we approach go-to market strategies.

Key Needs

- Testing and Validation (4 / 5): We will need partners to assist in testing and validation of our thesis and beta platform
- Funding & Investments (2 / 5): We will need support in thinking about next steps to scale our company and team after initial beta testing, if there is a good market fit.
- System Design (5 / 5): We will need support with interoperability, data storage, and thinking through UX/UI
- Software Development (4 / 5): We are building a data platform that will need to be receiving, storing, and analyzing many data sets.
- Marketing & Promotion (4 / 5): We will need feedback on how best to roll-out and introduce to market.
