

Gary Colip's challenge details for challenge: [Solar Prize Round 6](#)

Generated at Thu Oct 06 2022 13:03:19 GMT-0400 (Eastern Daylight Time)

Explanation

Reducing the cost of manufacturing solar panels.

Analyzing energy consumption.

Key Needs

- Manufacturing (4 / 5): Reducing the cost of the solar panels will reduce the cost of Solar HVAC making it more affordable to underserved areas.
- System Design (5 / 5): Engineering to increase the SEER ratings of condenser units using Solar HVAC
