McMptk's challenge details for challenge: [Solar Prize Round 6](#)

Generated at Thu Oct 06 2022 12:51:16 GMT-0400 (Eastern Daylight Time)

Explanation

machining, cutting, wood work, 3d printing,

Key Needs

- Manufacturing (4 / 5): part of the contest involves building prototypes
- Fabrication & Prototyping (4 / 5): team members need a way to realize their design
- Business Development & Commercialization (3 / 5): a successful goal would be wide deployment and developing a plan to reach the masses requires business skills, our team is mostly technical
- Marketing & Promotion (3 / 5): the best product in the world needs and audience and our team is technical rather than public facing
