U.S. CYBER GARAGE

The Cyber Garage is a multi-city RX5 Cybersecurity and Electric Grid virtual technology accelerator incubator platform, particularly focused on expanding Diversity Equity Inclusion (DEI) in economically disadvantaged urban and rural communities, to get the World-Class Cybersecurity Workforce which America's Electric Grid Needs.

NON-INVASIVE COVID SCREENING
for your next event

INTRODUCING FLASH-M

FLASH-M answers the call for early and rapid detection of SARS-CoV-2. This contactless, artificial intelligence-based approach to screening utilizes thermal facial mapping and optical spectral scans to detect the virus within seconds.

brought to you by HNu Photonics

MOBILE APP — Register, execute and receive results on your phone

RAPID DETECTION & UNLIMITED TESTING — Results available in less than one minute per person with unlimited testing per person every week

ECONOMICAL & SUSTAINABLE — Dramatically cuts down on the use of pricey PCR test consumables

CONTACTLESS & NON-INVASIVE — Keeps screeners and screenees safe by allowing for social distancing and no-touch scans

EASILY TRANSPORTED — Enclosed in a rugged roadcase and ready to deploy in minutes

FLASH Health Shield Services provide state-of-the-art screening, testing, prevention and protection to satisfy all of your COVID-19 compliance needs.

RX5 – POP TRACK 1 – CYBER GARAGE EMERGING INCUBATOR

Atlantic County Assemblyman Don Guardian and RX5 Cybersecurity Workforce Delegationsite visit of our "Cyber Garage" Incubator.

Our RX5 Cyber Garage 30K Sq. Ft. roof will provide an ample platform for our HNu solar powered incubator accelerator data systems needs. Additionally we're forming a strategic clean energy alliance with the Atlantic Shores Offshore Wind Project
Atlantic Shores Offshore Wind Awarded Largest Single Project in NJ - CNBNews (gloucestercitynews.net)
