

EPIC PRIZE ROUND 2

Imperial | Riverside | San Bernardino | San Diego

An Initiative of Cleantech San Diego

Cleantech San Diego's Southern California Energy Innovation Network (SCEIN) provides free resources to cleantech startups in San Diego, Riverside, Imperial, and San Bernardino counties to help successfully bring their innovations to market.

Our MVP will develop a process to directly provide SCEIN startups with voucher funding to assist with general engineering and manufacturing services for prototype development, design, and testing.

Through partnering with local engineering firms, our MVP will distribute voucher funding for strategic prototyping projects that support SCEIN startups as they cross the "technology valley of death", allowing them to advance their technology development and successfully raise capital.
