

The Clean Energy Business Incubator Program (CEBIP) drives pre-seed to early-growth companies (52 since 2011) through complex long on-ramp physical solutions critical in transforming the energy profile of Buildings, Transportation, HVAC, Infrastructure, Storage, and Generation.

Our MVP: Clean Energy Technology Transfer

Move It!

CETX Phase I

- Evaluate CE Hard-tech IP
- Scout teams
- Strengthen regional partnerships

Prove It!

CETX Phase II

- Downselect viable IP
- Assemble Tiger Teams
- Conduct discovery
- Design proof-of-concept

Success Indicators: # of technologies evaluated | # of students & partners engaged | # of licensing conversations initiated
