

## OVERVIEW OF MHUB

mHUB's mission is to enable U.S. hardtech innovation and commercialization by fueling collaboration between entrepreneurs, industry and investors and providing a hyper-resourced environment to develop, fund and accelerate clean energy, health, sustainability, and manufacturing technologies.

As a top-ranked incubator in manufacturing and hardtech that has supported 450 startups to generate 432 patents, \$720 million in revenue, and attract \$1.03 billion in investments, and create more than 4,000 jobs in five years

## MHUB'S MVP STRUCTURE

## IMPLEMENTATION PLAN

Staffing Restructure	•3 FTEs focused on startup resource navigation
Milestone Mapping	•Creating a clearer framework for building a hardtech business
Tracking system for milestones created	•So mHUB can track but also so startups can track
Resource mapping in platform	•Interactive tool so startups can utilize on-demand
Fundraising Programs developed	•To support the access to and readiness for capital
