# Rhizome: Planning for a more climate-resilient future

The Rhizome Team is pleased to submit our proposal of the Climate Resilience Decision-Making Tool in partnership with Seattle City Light, to use granular data and statistical approaches for identifying grid vulnerabilities, quantifying risk, and calculating cost-benefit of resilience investments.

**Mishal Thadani**
CEO, Rhizome
-Strategy and utility operations
-Recognized leader in energy resilience

**Alex Chojnacki**
CTO, Rhizome
-10 years applying ML for utilities
-Expertise in decision-making tools

**Jeremy Rucker**
ML, Rhizome (contract)
-NYU CUSP Grad
-Urban data science and ML expertise

**Jeremy Kim**
Data Scientist, Rhizome (contract)
-7+ years data science in health
-Time-series forecasting expertise
