

The Deployment Engine

A decarbonization focused construction energy tech accelerator *for innovators, by innovators*

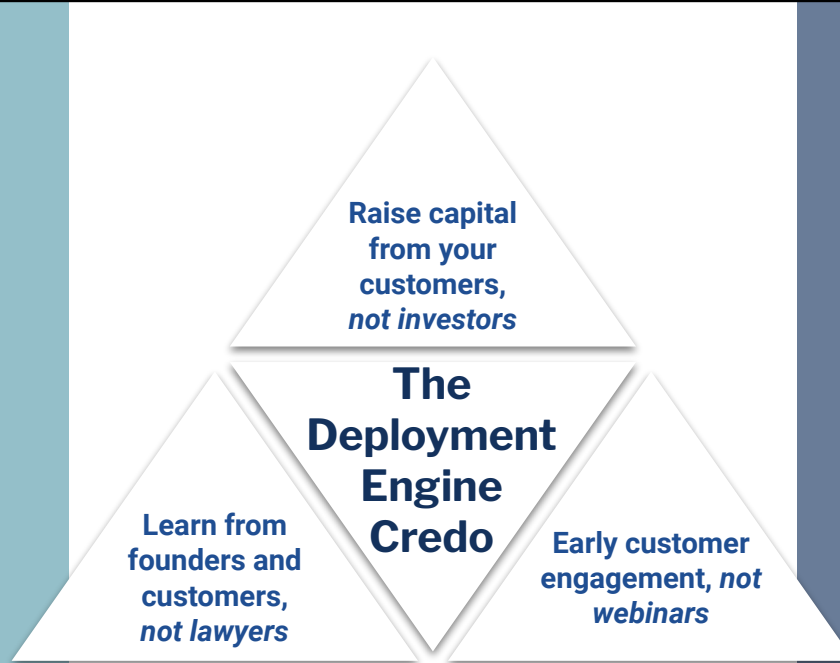

WHY

Hard-tech innovators **struggle** to navigate construction **commercialization pathways**. That's why we built the **last accelerator** needed.

HOW

Through **exceptional mentorship** from our industry and founder network, we enable early and often **customer deal-flow** for our cohorts to accelerate go-to-market timelines and secure customer deals.

TheDeploymentEngine.com

WHERE

We aim to **revitalize Appalachia**, the former engine of the US industrial age, as the heart of clean energy innovation clusters.

WHO

ADL is **energizing and rebuilding a net-zero world** by rewriting the rules of engagement among legacy corporations, new ventures, and government. ADL has started three successful accelerators, launched seven companies and raised \$700M
