

# Energy Awareness: Rural Towns & Homes

## Lead Organizations

**About GFE, Inc.**  
Developing energy self-sufficiency for all with primary focus on biomass, hydrogen, and energy storage. Incorporated in 2016  
Visit our website at [www.greenfortressengineering.com](http://www.greenfortressengineering.com)

**About the Lugar Center for Renewable Energy**  
The Richard G. Lugar Center for Renewable Energy (LCRE) was established in 2007 to address the societal needs for clean, affordable, renewable energy sources while improving the nation's energy security and helping to mitigate the negative impacts of climate change.  
Our primary mission is to promote research excellence in renewable energy through collaborative efforts among faculty in the disciplines of engineering, chemistry, physics, biology, and environmental affairs and public policy.  
These renewable energy applications are promoted through education, civic engagement, and synergistic partnerships with industry, government labs, and local communities.

## E.A.R.T.H.

## Leadership Team

Dr. Peter J. Schubert, Ph.D., P.E.  
Research professor in the Purdue School of Engineering & Technology at IUPUI, Director of the Richard G. Lugar Center for Renewable Energy

Mr. Michael Cambron  
Accomplished engineer with global experience, earnest renewable energy promoter and local resident

Sister Claire Whalen, OSF  
Experienced educator, lifelong learner, passionate advocate for sustainable living and clean energy

## Project Goals

- Gather installers, tradespersons
- Contact organizations, developers
- Establish community coalition
- Build a demonstration project
- Get the message out to the people
- Spur increased adoption of clean energy

## Current Activity

- Seeking partners with vital skills
- Seeking interested early-adopters
- Explore use of convent facilities
- Develop SE Indiana capability
- Arrange financing & support
