Title: Multifamily Electrification in Western Colorado.

Competitor Name: Community Organization for Resource Efficiency (CORE).

Organization: Community Organization for Resource Efficiency (CORE)/Dallas Blaney, PhD, Chief Executive Officer, dallas@aspencore.org, 970-901-2951, <https://aspencore.org>, 81621-8301.

Location of Primary Benefits: 81621-8301, Basalt, Colorado

Description of Proposed Plan: CORE and its Regional Climate Solutions Team seek to retrofit multifamily buildings across rural communities in western Colorado, with a specific focus on affordable housing as well as other multifamily buildings containing low- and moderate-income families. For this project, tasks will include formalizing relations among the partners, developing a communications strategy, curating funding and financing opportunities, and conducting the preliminary site work, including energy assessments and system design engineering work.
