## SUMMARY

**IRIDCCS LLC** (Independent Research, Innovation and Developpement on Climate Change Solutions)

**IRIDCCS LLC** is a new technology company with a crew of independent researchers in physics, energy, cosmology, and global warming solutions.

**IRIDCCS LLC** focuses more on news technics and designs to help reduce and tackle climate change.

**IRIDCCS** aims to establish and provide sustainable solutions with sciences, inventions, and innovations to customers to help reduce CO2 at different levels.

Our missions are:

- Furnishes solutions on sustainable clean energy with zero carbon and pollution-free.
- Offers solutions on control and availability of water and replenishes trees plants at a small and large scale for Climate-smart ecosystem solutions.
- Work on science issues with technical and understanding solutions to accelerate the reduction of greenhouse gas pollution with a real net zero emissions economy and jobs.
- Provides technology to speed the decarbonization of Industrial sectors with renewable and clean energy innovations.
- Provide sustainable, renewable clean energy with more availability and low cost to disadvantaged communities.

**IRIDCCS's** target is to be a company with concrete solutions and technologies to accelerate the reduction of carbon dioxide gases emission as fast as possible in our different industries and environments. We interconnect with our teams of scientists, engineers, technicians, operators, experts, and consultants to serve our state, and other regions.

**IRIDCCS** is located at 203 West Main Street 1012 Farmington NM 87401
