Digitizing Utilities Round 2

Letters of Support or Commitment Suggestions:

If you are partnering with a utility, the following should be included in a letter of support/commitment from your utility partner:

- Brief description of the project,
- Description of utility datasets to be utilized by the project team,
- Whether the team already has data access, and if not, acknowledgement and agreement by the utility to streamline access to the required datasets,
- Level of staff support to provide guidance and subject matter expertise to the team,
- Impact and benefits of the project to the utility, and
- Signed by Utility Manager/Director

If you are a utility, the following should be included in a letter of support/commitment from management:

- Brief description of the project,
- Description of utility datasets to be utilized by the project team,
- Any partnerships with neighboring utilities to collaborate or share outcomes of the project with
- Impact and benefits of the project to the utility, and
- Approval from Utility Manager/Director
