## WATTS ON THE MOON CHALLENGE PHASE 2, LEVEL 1

## Team Details

All teams participating in Phase 2 of NASA's Watts on the Moon Challenge are required to complete and sign the Competitor Documents. The documents that need to be filled out are dependent on a variety of factors. To reduce the likelihood of errors, HeroX intends to send the required documents to your team for signature via the digital signing service RightSignature.

The intention of this submission form is to collect the information necessary for HeroX to determine which forms your team needs to complete. After the submission deadline, you will receive the documents via RightSignature and your team must execute the documents no later than June 22, 2022 ( 7 days after the Competition Level 1 submission deadline). Read more about the registration process here.
Please note: The Team Leader will be responsible for compliance with the rules and ensuring the Team Agreement is accurate, complete, and fully executed. Centennial Challenges Program will issue prize payments to the Team Leader of the winning Team(s). Additional roles and responsibilities of the Team Leader are explained in the Team Agreement.
